2. BASIS OF PREPARATION AND CHANGES TO THE ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

The interim consolidated financial statements for the period ended September 30, 2019 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with Hudson's annual consolidated financial statements as of December 31, 2018.

In conjunction with the implementation of IFRS 16, Hudson adopted a new structure for the consolidated statements of comprehensive income to present income and expense line items more representative of the operating activities and to adapt to the IFRS terminology. The comparative figures were reclassified accordingly (see note 2.3).

The interim consolidated financial statements include financial assets and liabilities presented at carrying value, which is generally consistent when compared to fair value.

The interim consolidated financial statements were authorized for issue on October 29, 2019 by the board of directors of Hudson Ltd.

2.2 CORRECTION OF THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED MARCH 31, 2019 AND SIX MONTHS ENDED JUNE 30, 2019

In the third quarter of 2019, Hudson identified a required correction in the accounting adopted on transition to IFRS 16, related to certain lease contracts for its retail stores. These lease contracts contain complex features and certain payments that were previously considered to be variable lease payments, and as such recognized as lease expenses in the statements of comprehensive income when incurred, contain in-substance fixed commitments, and therefore, should have been included in the initial measurement of the respective lease liabilities and right-of-use assets on January 1, 2019.

More specifically, most of our contracts include payments which are variable based on sales, but not lower than a minimum threshold. This minimum threshold can be fixed or variable, with some of the variable thresholds being defined as a percentage of the previous year lease expense. Upon adopting the new lease standard (IFRS 16), the Group considered the future MAG changing every year as variable and consequently these payments fully as variable lease expense. However, as the variability is resolved at a certain point in the future, the minimum portions of the payments for the following years become fixed. These fixed portions of these future lease payments are now recognized as a right-of-use asset and lease obligation.

Since Hudson adopted IFRS 16 as of January 1, 2019 under the modified retrospective approach (and did not restate comparative information for 2018), the error has no impact on comparative information presented in interim consolidated financial statements of 2019, i.e. for the three, six and nine month periods.

The following corrections have been made to the information reported in the interim consolidated financial statements for the periods ended March 31, 2019 and June 30, 2019:

For the adjustments based on the IFRS 16 implementation as of January 1, 2019, see note 14 for the detailed disclosures of the transition to IFRS 16.
